The cards of Madame Lenormand "Blaue Eule" or Britta's deck of Lenormand cards

Shuffle the cards until it feels right for you, then lay them on the table, or whichever kind of surface you may use, picture side down. Spread them out in any shape you like, using both hands. If you are just starting to lay the cards, it is useful to practise with no more than two cards at a time. All other ways will only lead to confusion and slow down the learning process. Now pick a card with your left hand. Look up the meaning of the card in your list of cards and read it out loud.

Do not worry if you cannot remember the meanings by heart, this will take a while.

Example:

You have picked **no 25 Ring**
—
marriage or relationship

Figure out what exactly you want to know about the topic.
And then form a question.
Your sub conscience already knows the answer.
For instant, your question could be:

What is this card telling me?

Pick another card.
In our example this is

no 2 Clover Leaf
small happiness

Let us now combine these two cards

no. 25 Ring
*marriage or
relationship*

no. 2 Clover Leaf
small happiness

- You are in a happy relationship (married or not) -

Exercises:

The following exercises shall introduce you to the task of interpreting cards.

Please use your intuition and interpret what you feel.

Combine the statements in **your own words** in one or two sentences.

The solutions at the end of each exercise are my suggestions. Please keep in mind that these are not the one and only possible solutions since there is no such thing as a correct answer in laying cards.

Laying cards is an oracle and only **you** can interpret what the cards tell **you**.

Have fun practising!!

Another example: Picture 4

Present situation and near future

Our topic is:

What is my love life like? Look at the tableau focusing on **no. 24**
And start with your interpretation

.....

Suggested interpretation:

In the past:

*There has been great sadness (23+16) and some
lovesickness in your life (23+24)*

In the future:

*These sad motions will pass and you will finally
find true love (24+2+9).*

As you can see, laying the cards is not that difficult after all.
If you keep
practising regularly you shall soon make progress.
Just keep those two things in mind: Let your soul guide you and
“practice
makes perfect.”

Example 2:

**A line of eight cards
on the future and past of no. 28 Man**

to the left: a look into the past
to the right: looking into the future

Now interpret this man's **future** (starting from no. 28 **to the right**)

.....

What can you say about his **past (left)**

.....

Combine the future with the past to get a full interpretation:

.....

Suggested solution:

*This man had a lot of trouble in his domestic area **in the past**.*

In the future:

Everything in his life is now heading for a change not yet clearly visible.

But as far as we can see from the cards there is no real need to worry as everything will be alright in the end (no. 9).

**A woman asking about her health!
Past and future**

						↓ no. 33 Key	

This woman would like to know something about her health.
Look at no. 8 and no. 29 and start your interpretation!

Your interpretation:

.....

Keep an eye on combinations!

Suggested interpretation:

Otherwise you are more than likely to misinterpret the situation!

no. 29 is divorced (25+10).

She is very sad and also depressed (23+16) and afraid of changes (23).....
